

The dream of going to college is alive and well at Public Employees Credit Union. As a service to our members, PECU has stepped up its efforts by reaching out and encouraging students and their parents to look at options on how to fund college. That dream of going to college may be closer than you think.

That dream of going to college may be closer than you think.

Funding Your College Education

Funding Your Dream *(All Credit Unions are not alike)*

The federal government regulates the primary features of loan programs for students going to college. Interest rates and repayment terms are regulated, but incentives and service vary. This is where PECU comes in. We work with a not-for-profit corporation called COSTEP. Together, we will assist you in completing the Free Application for Federal Student Aid (FAFSA) and help you to obtain a loan.
